In this elegant and chilling story about world politics, the great Toni Servillo defies expectations playing two roles, imbuing each character with brilliant nuance and astonishing attention to detail. In the first, he personifies political failure in the role of the disgraced ideologue and party leader, Enrico Oliveri. In the second, he embodies the shrewd genius of a madman as Oliveri's unhinged twin brother who seizes control of the nation.

As the national election approaches, Enrico Oliveri has plummeted in the polls and his supporters and adversaries alike begin to acknowledge his impending downfall. Unwilling to face the failure of his party and his nation, Oliveri vanishes. In a desperate move, the party leadership seeks out Oliveri's look-alike twin brother, Giovanni Ernani, a prolific author and philosopher who is freshly released from an insane asylum.

Giovanni quickly surpasses his brother's political prowess with an eerie talent for rallying the masses through fearless and heroic speeches. As Andò shifts between the failure of the sincere intellectual and the heroics of a madman, he probes the driving forces behind our contemporary global political reality leaving behind a rich web of questions in this unpredictable and provocative thriller.
